UNIVERSAL CONNECTIVITY , 2009 "Companies to Watch"

Connecticut Technology Council Announces the 2009 Innovation Pipeline Companies to Watch Awards

West Hartford, CT - Sep 22, 2009 Universal Connectivity has been selected by the Connecticut Technology Council as a 2009 Company to Watch in recognition of its unique technology which includes the Hosted PBX and Phone line services. The Connecticut Technology Council, the State's industry association for the technology sector, annually recognizes companies with an innovative product or service and a business model that demonstrates potential for future success.

Universal Connectivity's President James Smith attributes this honor to the tremendous work by our employees and suppliers who leveraged our extensive experience with all infrastructures from Fiber Optics to DSL and legacy systems to VoIP. We have created a cost effective, powerful system with a simple, easy to use interface and provide industry-leading reliability and world class customer support every step of the way.

About Cantor Colburn LLP

Cantor Colburn specializes in intellectual property law helping companies both large and small succeed in this critically important area of the law. Its philosophy is to partner with clients, both large and small, to provide them with quality, timely, and cost effective legal services so that they can maximize and enjoy the full value of their intellectual property assets. Its practice covers all aspects of intellectual property law, extending to industries as diverse as biotechnology, telecommunications, polymeric materials, optical imaging, petroleum, electrical power systems, medical instrumentation, software, optics, and industrial safety protection products.

About the Connecticut Center for Advanced Technology

The Connecticut Center for Advanced Technology, Inc. helps private and public entities to apply innovative tools and practices to increase efficiencies, improve workforce development and boost competitiveness. CCAT functions as a unique economic development organization that combines expertise in cutting-edge technology with specialized centers of excellence in manufacturing, education, training, energy and entrepreneurialism. It promotes partnership between industry, academia and government to create a new collaborative framework for addressing 21st-century economic challenges.

About Universal Connectivity, Inc.

Universal Connectivity is the Northeast telecommunications service provider specializing in helping companies adapt to new telecommunications technologies at a pace and cost that supports their business goals. Every company is different - and only a dedicated, responsive team of telecommunications professionals can evaluate, offer options, and implement the best communications strategy across an efficient, secure network. Universal Connectivity configures and operates networks using the optimum technologies and network infrastructure for each customer. The monthly cost is usually lower, but more importantly, the capabilities are more robust, from speedier voice and data service to having back-up lines and re-routing capabilities that may someday save a customer's business.
